

AGREEMENT

for

PROFESSIONAL SERVICES

between

THE CITY OF WICHITA, KANSAS

and

PROFESSIONAL ENGINEERING CONSULTANTS, P.A.

for

GREENWICH FROM CENTRAL TO 13TH STREET NORTH

THIS AGREEMENT, made this _____ day of _____, 2006, by and between the CITY OF WICHITA, KANSAS, party of the first part, hereinafter called the "CITY" and PROFESSIONAL ENGINEERING CONSULTANTS, P.A., party of the second part, hereinafter called the "ENGINEER".

WITNESSETH: That

WHEREAS, the CITY intends to construct;

GREENWICH FROM CENTRAL TO 13TH STREET NORTH
(Project No. 472 84435)

NOW, THEREFORE, the parties hereto do mutually agree as follows:

I. SCOPE OF SERVICES

The ENGINEER shall furnish professional services as required for designing improvements to Greenwich from Central to 13th Street North and to perform the PROJECT tasks outlined in Exhibit A.

II. IN ADDITION, THE ENGINEER AGREES

- A. To provide the various technical and professional services, equipment, material and transportation to perform the tasks as outlined in the SCOPE OF SERVICES (Exhibit A).
- B. To attend meetings with the City and other local, state and federal agencies as necessitated by the SCOPE OF SERVICES.
- C. To make available during regular office hours, all calculations, sketches and drawings such as the CITY may wish to examine periodically during performance of this agreement.
- D. To save and hold CITY harmless against all suits, claims, damages and losses for injuries to persons or property arising from or caused by errors, omissions or negligent acts of ENGINEER, its agents, servants, employees, or subcontractors occurring in the performance of its services under this contract.
- E. To maintain books, documents, papers, accounting records and other evidence pertaining to costs incurred by ENGINEER and, where relevant to method of payment, to make such material available to the CITY.

- F. To comply with all Federal, State and local laws, ordinances and regulations applicable to the work, including Title VI of the Civil Rights Act of 1964, and to comply with the CITY'S Affirmative Action Program as set forth in Exhibit "B" which is attached hereto and adopted by reference as though fully set forth herein.
- G. To accept compensation for the work herein described in such amounts and at such periods as provided in Article IV and that such compensation shall be satisfactory and sufficient payment for all work performed, equipment or materials used and services rendered in connection with such work.
- H. To complete the services to be performed by ENGINEER within the time allotted for the PROJECT in accordance with Exhibit A; EXCEPT that the ENGINEER shall not be responsible or held liable for delays occasioned by the actions or inactions of the CITY or other agencies, or for other unavoidable delays beyond control of the ENGINEER.
- I. Covenants and represents to be responsible for the professional and technical accuracies and the coordination of all designs, drawings, specifications, plans and/or other work or material furnished by the ENGINEER under this agreement. ENGINEER further agrees, covenants and represents, that all designs, drawings, specifications, plans, and other work or material furnished by ENGINEER, its agents, employees and subcontractors, under this agreement, including any additions, alterations or amendments thereof, shall be free from negligent errors or omissions.
- J. ENGINEER shall procure and maintain such insurance as will protect the ENGINEER from damages resulting from the negligent acts of the ENGINEER, its agents, officers, employees and subcontractors in the performance of the professional services rendered under this agreement. Such policy of insurance shall be in an amount not less than \$500,000.00 subject to a deductible of \$20,000.00. In addition, a Workman's Compensation and Employer's Liability Policy shall be procured and maintained. This policy shall include an "all state" endorsement. Said insurance policy shall also cover claims for injury, disease or death of employees arising out of and in the course of their employment, which, for any reason, may not fall within the provisions of the Workman's Compensation Law. The liability limit shall be not less than:

Workman's Compensation – Statutory
Employer's Liability - \$500,000 each occurrence.

Further, a comprehensive general liability policy shall be procured and maintained by the ENGINEER that shall be written in a comprehensive form and shall protect ENGINEER against all claims arising from injuries to persons (other than ENGINEER'S employees) or damage to property of the CITY or others arising out of any negligent act or omission of ENGINEER, its agents, officers, employees or subcontractors in the performance of the professional services under this agreement. The liability limit shall not be less than \$500,000.00 per occurrence for bodily injury, death and property damage. Satisfactory Certificates of Insurance shall be filed with the CITY prior to the time ENGINEER starts any work under this agreement. In addition, insurance policies applicable hereto shall contain a provision that provides that the CITY shall be given thirty (30) days written notice by the insurance company before such policy is substantially changed or canceled.

- K. To designate a Project Manager for the coordination of the work that this agreement requires to be performed. The ENGINEER agrees to advise the CITY, in writing, of the person(s) designated as Project Manager not later than five (5) days following issuance of the notice to proceed on the work required by this agreement. The ENGINEER shall also advise the CITY of any changes in the person designated Project Manager. Written notification shall be provided to the CITY for any changes exceeding one week in length of time.

III. THE CITY AGREES:

- A. To furnish all available data pertaining to the PROJECT now in the CITY'S files at no cost to the ENGINEER. Confidential materials so furnished will be kept confidential by the ENGINEER.
- B. To provide standards as required for the PROJECT; however, reproduction costs are the responsibility of the ENGINEER, except as specified in Exhibit A.
- C. To pay the ENGINEER for his services in accordance with the requirements of this agreement.
- D. To provide the right-of-entry for ENGINEER'S personnel in performing field surveys and inspections.
- E. To designate a Project Manager for the coordination of the work that this agreement requires to be performed. The CITY agrees to advise, the ENGINEER, in writing, of the person(s) designated as

Project Manager with the issuance of the notice to proceed on the work required by this agreement. The CITY shall also advise the ENGINEER of any changes in the person(s) designated Project Manager. Written notification shall be provided to the ENGINEER for any changes exceeding one week in length of time.

- F. To examine all studies, reports, sketches, drawings, specifications, proposals and other documents presented by ENGINEER in a timely fashion.

IV. PAYMENT PROVISIONS

- A. Payment to the ENGINEER for the performance of the professional services required by this agreement shall be made on the basis of the lump sum payment plus partials made on the basis of the lump sum fee amount of \$140,800.00.

During the progress of work covered by this agreement, partial payments may be made to the ENGINEER at intervals of one calendar month. The progress billings shall be supported by documentation acceptable to the City Engineer which shall include a project bar chart or other suitable progress chart indicating progress on the PROJECT and a record of the time period to complete the work, the time period elapsed, and the time period that remains to complete the work. Billings submitted during the progress of the work will be paid on the basis of satisfactory completion of major project tasks. The major tasks and accumulated partial payment amounts are listed below:

Accumulated partial payments shall not exceed \$70,400.00 (fifty percent of the maximum fee payment amount) until field check plans have been received and approved by the City Engineer for distribution to utility companies. Accumulated partial payments shall not exceed \$98,560.00 (seventy percent of the maximum fee payment amount) until office check plans have been received and approved by the City Engineer for distribution to utility companies. Accumulated partial payments shall not exceed \$126,640.00 (eighty percent of the maximum fee payment amount) until final utility plans allowing for utility relocations or adjustments for the PROJECT have been received and approved by the City Engineer for distribution to the utilities.

Accumulated partial payments for the PROJECT shall be based on milestones in Exhibit A and shall not exceed eighty-five percent (85%) of the total fees for services prior to satisfactory completion of all work required by this agreement

- B. When requested by the CITY, the ENGINEER will enter into a Supplemental Agreement for additional services related to the PROJECT such as, but not limited to:
 - 1. Consultant or witness for the CITY in any litigation, administrative hearing, or other legal proceedings related to the PROJECT.
 - 2. Additional design services not covered by the scope of this agreement.
 - 3. Construction staking, material testing, inspection and administration related to the PROJECT.
 - 4. A major change in the scope of services for the PROJECT.If additional work should be necessary, the ENGINEER will be given written notice by the CITY along with a request for an estimate of the increase necessary in the not-to-exceed fee for performance of such additions. No additional work shall be performed nor shall additional compensation be paid except on the basis of a Supplemental Agreement duly entered into by the parties.

V. THE PARTIES HERETO MUTUALLY AGREE:

- A. That the right is reserved to the CITY to terminate this agreement at any time, upon written notice, in the event the PROJECT is to be abandoned or indefinitely postponed, or because of the ENGINEER'S inability to proceed with the work.
- B. That the field notes and other pertinent drawings and documents pertaining to the PROJECT shall become the property of the CITY upon completion or termination of the ENGINEER'S services in accordance with this agreement; and there shall be no restriction or limitation on their further use by the CITY. Provided, however, that CITY shall hold ENGINEER harmless from any and all claims, damages or causes of action which arise out of such further use when such further use is not in connection with the PROJECT.
- C. That the services to be performed by the ENGINEER under the terms of this agreement are personal and cannot be assigned, sublet or transferred without specific consent of the CITY.

- D. In the event of unavoidable delays in the progress of the work contemplated by this agreement, reasonable extensions in the time allotted for the work will be granted by the CITY, provided, however, that the ENGINEER shall request extensions, in writing, giving the reasons therefor.
- E. It is further agreed that this agreement and all contracts entered into under the provisions of this agreement shall be binding upon the parties hereto and their successors and assigns.
- F. Neither the CITY'S review, approval or acceptance of, nor payment for, any of the work or services required to be performed by the ENGINEER under this agreement shall be construed to operate as a waiver of any right under this agreement or any cause of action arising out of the performance of this agreement.
- G. The rights and remedies of the CITY provided for under this agreement are in addition to any other rights and remedies provided by law.
- H. It is specifically agreed between the parties executing this contract, that it is not intended by any of the provisions of any part of this contract to create the public or any member thereof a third party beneficiary hereunder, or to authorize anyone not a party to this contract to maintain a suit for damages pursuant to the terms or provisions of this contract.

IN WITNESS WHEREOF, the CITY and the ENGINEER have executed this agreement as of the date first written above.

CITY OF WICHITA

ATTEST:

W. David Helburn

SCOPE OF SERVICES

GREENWICH, CENTRAL TO 13TH STREET NORTH (472 84435)

The ENGINEER shall design a 4/5-lane pavement with possible landscaped medians and sidewalks between Central and 13th Street North. This will involve looking at drainage, utility relocation, right-of-way requirements, turning requirements, and lane configurations. It is expected that the project limits will extend from the south curb return at 13th Street, to the existing 5-lane section north of Central. However, the ENGINEER, as part of this project, will evaluate the need for any additional improvements outside these limits. The ENGINEER will be required to determine construction estimates (possibly 4 to 5 estimates, at ¼ mile, ½ mile, ¾ mile, and full project) and complete final design for possible phasing of the overall project into two separate projects. The ENGINEER shall also include design of underground storm water sewer along the project, including necessary modifications to existing RCBCs. During the Discovery Phase the ENGINEER is to meet with the area businesses, DAB, the City's Design Council, City staff, and City Council to determine the project's scope of improvements and the design criteria. A written document is to be prepared by the ENGINEER stating the scope of physical improvements to be included in the project, and the design goals and issues to be addressed in the Concept Phase. In the Concept Phase the ENGINEER is to prepare conceptual design alternatives to respond to the design criteria and project scope identified and approved earlier in the Discovery Phase. The ENGINEER is to make presentations of the conceptual design alternatives to the associations and boards, City staff, and City Council; and revise the designs as necessary to secure approval by the City Council of a final concept. A preliminary cost estimate of the approved concept is to be prepared by the ENGINEER as part of the Concept Phase. The City must approve the initiation of the Construction Design work following the completed Concept Phase. Tract maps to identify right-of-way requirements is part of the Concept Phase. Monument marking of any new right-of-way is considered part of the Construction Design Phase. This project will include coordination of the relocation of utilities as necessary. This project is partially funded by KDOT.

Upon award of this project the ENGINEER will contact utility companies directly and determine from the existing records the location of all utilities. Coordination with the utility companies involved will include a conceptual plan jointly developed with the utility company indicating the methods employed to resolve utility conflicts. The conceptual plan should include elements of designing around the utility, analysis of construction expense vs. design expense, and utility company expenses to resolve conflicts.

On projects that disturb one acre or more, the ENGINEER will prepare a storm water erosion control/pollution prevention plan, prepare the necessary permit application(s) and include any provisions or requirements in the project plans and special provisions.

Associated improvements as part of these projects will include permanent traffic signalization system improvements (if required), permanent traffic signing, permanent pavement markings, construction traffic control, construction phasing (when applicable), incidental drainage, sidewalk (when required), identification of additional right-of-way (if required) and furnishing tract drawings and legal descriptions for such right-of-way.

The ENGINEER shall furnish engineering services as required for the best and most cost effective design for the development of the project and provide project alternatives where applicable, including landscaping and beautification provisions on streets where appropriate in available right-of-way; the project plans; supplemental specifications; quantities of work; and estimates of the cost for the PROJECT in the format and detail required by the City Engineer for the City of Wichita and the Kansas Department of Transportation (KDOT), and the U.S. Army Corps of Engineers, when applicable. The

project alternatives, including proposed landscaping, are to be presented to the City's Design Council for concurrence in selection prior to progressing to detailed aspects of the work. ENGINEER should use plant material that is drought resistant and requires low maintenance in a xeriscape concept. A landscape architect should be included on the Consultants' Design Team.

The ENGINEER should identify all trees that may be in conflict or jeopardy of damage by construction activities and then review with Park Department to determine if the trees can be saved and/or moved.

In addition, the ENGINEER will notify the City Archaeologist, at 316-978-3195 prior to beginning work on this project.

In connection with the services to be provided, the ENGINEER shall:

A. PHASE I - PRELIMINARY CONCEPT DEVELOPMENT

When authorized by the CITY and where applicable, proceed with development of Study and Alternative Concepts for the PROJECT in the detail deemed necessary to permit the preparation of preliminary and final plans for construction of the improvements based on the preliminary information provided to the ENGINEER.

1. Review Alternative Design Concepts. Review alternative design concepts with the City Engineer or his designated representative prior to progressing to detail aspects of the work. Alternative concepts as ascertained shall be reviewed and discussed with the City Engineer or his designated representative for concurrence in determining the best horizontal and vertical alignments for the PROJECT. CITY'S concurrence in selection of an alternate or preliminary concept will be contingent on the accuracy and completeness of the background information provided by the ENGINEER used in the evaluation process.
2. Review Preliminary Design Concepts. Review preliminary design concepts with the City Engineer for the City of Wichita prior to progressing to detail aspects of the work. Preliminary design concepts shall be provided on a strip map suitable for presentation at public meetings as required by the City Engineer of the City of Wichita.
3. Drainage Study. When authorized, conduct a detailed study to explore alternative design concepts concerning drainage for the PROJECT. Present the findings in writing identifying recommendations to the CITY, including preliminary cost estimates, prior to development of field check plans. Such written findings and recommendations must be in a format which is self explanatory and readily understood by persons with average backgrounds for the technology involved.
4. Preliminary Street and Storm Water Sewer Alignments and Profiles. Prepare preliminary street geometrics/alignments with proposed street and storm water sewer grades to conform to the drainage plan for the PROJECT. The drainage plan and computations shall be submitted along with one (1) set of preliminary street and storm water sewer profiles to the CITY for review and approval prior to proceeding with development of field check plans.
5. Preliminary Water Line Alignments and Profiles. Preliminary water alignments and grades are to be reviewed with the CITY by the ENGINEER for approval prior to proceeding to detail aspects of the work.
6. Right-of-Way. Identify right-of-way requirements for the preliminary concepts developed. Such right-of-way requirements shall be provided on a strip map suitable for presentation at public meetings as required by the City Engineer of the City of Wichita.
7. Public Hearings. Assist the City in the conduct of a public hearing(s) on the proposed improvements for the PROJECT as necessary to inform the public, governmental agencies, and affected parties as to construction traffic control, construction sequence and methods, estimated time and duration of project construction, environmental assessment, right-of-way requirements, estimated project costs, etc. Provide adequate visual displays for public presentations and in electronic format for use in power point presentation.
8. S. I. & A. for Bridges. Perform initial and keep current the inspection/inventory and analysis for completion/update of the Structural Inventory and Appraisal (S. I. & A.) form for submittal

to KDOT. ENGINEER shall also provide the CITY with a new S. I. & A. upon completion of the bridge construction, along with the Design Load Ratings ("Load Factor" method) and pictures, with one copy submitted to KDOT Bridge Engineer.

9. Landscape Plans. When the design has fulfilled the program requirements, submit three (3) sets of landscape plans to the CITY'S project manager. After the project manager approves the plans, he/she will submit two (2) sets to the Park Department for review and comments. When the Park Department has approved the plans, the ENGINEER may proceed with placing them on the Design Council agenda for review and comment.
10. Design Council. ENGINEER shall meet with the City's Design Council, to review the PROJECT design and interpret engineering drawings. The first presentation should be made at the point when the ENGINEER has arrived at a design which meets all of the functional requirements of the program and has been tentatively approved by the City staff person in charge. Before authorization is given to the ENGINEER to move on to design development, the PROJECT should be presented to the Design Council for review.

B. PHASE II - PLAN DEVELOPMENT

When authorized by the CITY, proceed with development of Plans for the PROJECT based on the preliminary design concepts approved by the CITY and as agreed upon at Field Check and/or Office Check Review.

1. Design Council. ENGINEER shall meet with the City's Design Council to review the PROJECT design and interpret engineering drawings. The PROJECT should be presented when the design of the PROJECT has been perfected to the point where all design factors (shape, size, materials, colors, landscape, exterior relationship, amenities, etc.) have been decided and tentatively approved by staff. It is at this point that the design can be considered "frozen" and will not be changed except for unforeseen conditions, which may arise.
(It should be noted it is in the ENGINEER'S best interest to reach design freeze and gain aesthetic approval as early in the project as possible. Whereas the Design Council does not presume to tell the ENGINEER or staff when in the planning process design freeze should take place, the amount of time and effort which the ENGINEER has invested in the development of construction documents or other activities will not be taken into consideration by the Design Council at the Design Freeze review.)
2. ULCC. The ENGINEER shall prepare Utility Check plans and schedule with ULCC subcommittee for review as early as practical, usually prior to Field Check plan stage. A second ULCC review should be scheduled near Office Check plan stage. Utility coordination procedures shall conform to the current policy of the City Engineer.
3. Field Check Plans. When authorized by the CITY, prepare field check plans and a preliminary cost estimate for the PROJECT based on approved preliminary concepts as required by the CITY. ENGINEER to submit one copy of preliminary cost estimate and three (3) sets of field check plans to the CITY and one copy of preliminary cost estimate and four (4) sets of field check plans to KDOT. ENGINEER to participate in a field check of the PROJECT with the CITY and with KDOT when required. Major items of work included in development of field check plans are:
 - (a) Field Surveys. Provide engineering and technical personnel and equipment to obtain survey data as required for the engineering design. Utility companies shall be requested to flag or otherwise locate their facilities within the PROJECT limits prior to the ENGINEER conducting the field survey for the PROJECT. Utility information shall be clearly noted and identified on the plans. Coordination of utilities and pipelines for the PROJECT by the ENGINEER shall conform to current adopted policies of the City Engineer for Category II projects.
 - (b) Submit fifteen (15) sets of field check plans to the City Engineer's office for distribution to utility companies. Submit additional sets of field check plans as required for utility and pipeline companies who are not members of the Utility Location Coordination Council.
 - (c) Soils and Foundation Investigations. The CITY may authorize the ENGINEER to direct

an approved Testing Laboratory to perform subsurface borings and soils investigations for the PROJECT, which shall be reported in the format and detail required by the City Engineer for the City of Wichita. The Testing Laboratory shall be responsible for the accuracy and competence of their work. The ENGINEER'S contract with the Testing Laboratory shall provide that the Testing Laboratory is responsible to the City for the accuracy and competence of their work. The cost of soils and boring investigations shall be passed directly to the City of Wichita if not included in the ENGINEER'S fee estimate. However, all bridge projects shall include the cost of soils and boring investigations in the ENGINEER'S fee.

- (d) Prepare right-of-way tract maps and descriptions as required in clearly drawn detail and with sufficient reference to certificate of title descriptions. ENGINEER will perform all necessary survey work associated with marking the additional right-of-way or easements. This shall include the monumentation of new corners for any additional right-of-way and a one time marking of all the right-of-way for utility relocations at a time directed by the CITY.
 - (e) Prepare legal descriptions for Right of Entry and submit drawings to the City that are suitable for mailing to property owners. Incorporate Right of Entry limits on the plans.
4. Office Check Plans. When authorized by the CITY prepare office check plans for the PROJECT based upon comments as agreed upon in field check review. Major items of work included in development of office check plans are:
- (a) Submit three (3) sets of office check plans to the CITY and, if required, two (2) sets of office check plans to KDOT, with one copy of supplemental specifications and one copy of cost estimates and quantities of work units of the PROJECT for office check. (Cost estimates to be based on current unit prices for similar work in the Wichita area unless otherwise directed by the CITY.) Field check plans marked with CITY and/or KDOT comments are to be returned to the CITY with office check plan submittals. ENGINEER to participate in an office check of the PROJECT with the CITY and with KDOT when required.
 - (b) Identify all known utility conflicts. ENGINEER shall meet with utility company representatives as required to review the PROJECT design and interpret engineering drawings. Utility coordination procedures shall conform to current policy of the City Engineer.
 - (c) Submit fifteen (15) sets of office check plans to the City Engineer's office for distribution to utility companies. Submit additional sets of office check plans as required for utility and pipeline companies who are not members of the Utility Location Coordination Council.
 - (d) Office check plans shall include traffic signalization details, traffic signing details, pavement marking details, incidental drainage, construction phasing details (when applicable), construction traffic control details, and all other necessary construction details required for the PROJECT. The PROJECT'S plans and proposed special provisions shall address the requirements included in the City's Administrative Regulation 78, "Cleanup, Restoration or Replacement Following Construction."
 - (e) Permits. The ENGINEER shall prepare any and all necessary permits for this PROJECT, such as the preparation of applications for U.S. Army Corps of Engineers (404) permits, Division of Water Resources permit, Kansas Department of Wildlife and Parks permit and Kansas Department of Health and Environment permit. Also if requested by the CITY, obtain construction approval from the U.S. Army Corps of Engineers and assist the CITY in coordinating the archaeological review of the PROJECT.
5. Final Plans. When authorized by the CITY prepare final plans for the PROJECT based upon comments as agreed upon as a result of the office check review. Major items of work included in development of final plans are:
- (a) Prepare engineering plans (which shall include construction sequencing and traffic control), supplemental specifications, special provisions and construction cost estimates,

or estimates of the quantities of work for the PROJECT.

- (b) All engineering plans shall be prepared in ink on standard Mylar sheets in the format required by the CITY and/or KDOT. Also, final plans, field notes and other pertinent project mapping records are to be provided to the CITY via floppy diskettes (3½"), CD-ROM, or other media acceptable to the City Engineer. The files are to be AutoCAD drawing files or DXF/DXB files. Layering, text fonts, etc. are to be reviewed and approved during the preliminary concept development phase of the design work. Text fonts other than standard AutoCAD files are to be included with drawing files. In addition to supplying the electronic files of the AutoCAD drawing files of the final plans, ENGINEER will also need to supply electronic files of the drawings in PDF format.
 - (c) Technical construction specifications shall in general follow the City of Wichita's Standard Specifications and/or KDOT Standard Specifications supplemented as necessary to suit PROJECT requirements. Plan profile sheets shall also be required for water distribution system/water supply line improvements.
 - (d) Engineer's cost estimate information shall be submitted in tabular form and on a unit cost basis, as approved by the CITY and as required by KDOT. Pay items of work shall conform to CITY or KDOT standards as applicable.
 - (e) Final plans when submitted shall be complete and ready for reproducing for distribution to prospective bidders.
 - (f) All applicable coordinate control points and related project staking information shall be furnished on the plans, as well as on a 3 ½" diskette or CD-ROM in a format agreed upon by the CITY. When applicable, this coordinate information will be used by the CITY for construction staking purposes.
 - (g) Final Tracings. The original tracings (plan sheets to be on Mylar) of the approved final plans and supplemental specifications shall be delivered to the City Engineer, of the City of Wichita, for the taking of bids as appropriate for the CITY and/or KDOT. Two half scale plans shall be furnished to the CITY, and if a KDOT/Federally funded project, 4 additional half scale plans shall be furnished.
 - (h) The date identified as the date of CITY acceptance of final plans and other supplementary work will be that date upon which the City Engineer ascertains that such plans and work are in accordance with all provisions of the contract for design services.
 - (i) ENGINEER shall provide the CITY with electronic files suitable for power point presentations to the Design Council and City Council.
6. Staking and Inspection If requested by the CITY, the ENGINEER will enter into a Supplemental Agreement to complete construction staking, material testing, inspection and administration related to the PROJECT.
7. Post Letting.
- (a) All shop drawings submitted by the contractor for the PROJECT shall be reviewed and, when acceptable, approved for construction by the ENGINEER for the PROJECT.
 - (b) The ENGINEER shall meet with effected property owners, along with City staff, at a pre-construction Public Information Meeting, as arranged by the City, to explain project design, including such issues as construction phasing and traffic control.
 - (c) The Engineer shall complete permanent monumentation of all new RW, complete and submit all necessary legal documentation for same.
8. Project Milestone. The ENGINEER agrees to complete and deliver the field notes, preliminary and final plans (including final tracings), specifications and estimates to the CITY within the time allotted for the PROJECT as stipulated below and generally in accordance with the project bar chart attached to Exhibit A; EXCEPT that the ENGINEER shall not be responsible or held liable for delays occasioned by the actions or inactions of the CITY or other agencies, or for other unavoidable delays beyond the control of the ENGINEER.
- (a) Concept designs are due September 2006.
 - (b) Field Check plans are due December 2006.
 - (c) Office Check plans are due March 2007.
 - (d) Final plans are due April 2007.

**REVISED NON-DISCRIMINATION AND
EQUAL EMPLOYMENT OPPORTUNITY/AFFIRMATIVE ACTION PROGRAM
REQUIREMENTS STATEMENT FOR CONTRACTS OR AGREEMENTS**

During the term of this contract, the contractor or subcontractor, vendor or supplier of the City, by whatever term identified herein, shall comply with the following Non-Discrimination--Equal Employment Opportunity/Affirmative Action Program Requirements:

- A. During the performance of this contract, the contractor, subcontractor, vendor or supplier of the City, or any of its agencies, shall comply with all the provisions of the Civil Rights Act of 1964, as amended: The Equal Employment Opportunity Act of 1972; Presidential Executive Orders 11246, 11375, 11131; Part 60 of Title 41 of the Code of Federal Regulations; the Age Discrimination in Employment Act of 1967; the Americans with Disabilities Act of 1990 and laws, regulations or amendments as may be promulgated thereunder.
- B. Requirements of the State of Kansas:
 - 1. The contractor shall observe the provisions of the Kansas Act against Discrimination (Kansas Statutes Annotated 44-1001, et seq.) and shall not discriminate against any person in the performance of work under the present contract because of race, religion, color, sex, disability, and age except where age is a bona fide occupational qualification, national origin or ancestry;
 - 2. In all solicitations or advertisements for employees, the contractor shall include the phrase, "Equal Opportunity Employer", or a similar phrase to be approved by the "Kansas Human Rights Commission";
 - 3. If the contractor fails to comply with the manner in which the contractor reports to the "Kansas Human Rights Commission" in accordance with the provisions of K.S.A. 1976 Supp. 44-1031, as amended, the contractor shall be deemed to have breached this contract and it may be canceled, terminated or suspended in whole or in part by the contracting agency;
 - 4. If the contractor is found guilty of a violation of the Kansas Act against Discrimination under a decision or order of the "Kansas Human Rights Commission" which has become final, the contractor shall be deemed to have breached the present contract, and it may be canceled, terminated or suspended in whole or in part by the contracting agency;
 - 5. The contractor shall include the provisions of Paragraphs 1 through 4 inclusive, of this Subsection B, in every subcontract or purchase so that such provisions will be binding upon such subcontractor or vendor.
- C. Requirements of the City of Wichita, Kansas, relating to Non-Discrimination -- Equal Employment Opportunity/Affirmative Action Program Requirements:
 - 1. The vendor, supplier, contractor or subcontractor shall practice Non-Discrimination -- Equal Employment Opportunity in all employment relations, including but not limited to employment, upgrading, demotion or transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship. The vendor, supplier, contractor or subcontractor shall submit an Equal Employment Opportunity or Affirmative Action Program, when required, to the Department of Finance of the City of Wichita, Kansas, in accordance with the guidelines established for review and evaluation;
 - 2. The vendor, supplier, contractor or subcontractor will, in all solicitations or advertisements for employees placed by or on behalf of the vendor, supplier, contractor or subcontractor, state that all qualified applicants will receive consideration for employment without regard to race, religion, color, sex, "disability, and age except where age is a bona fide occupational qualification", national origin or ancestry. In all solicitations or advertisements for employees the vendor, supplier, contractor or subcontractor shall include the phrase, "Equal Opportunity Employer", or a similar phrase;
 - 3. The vendor, supplier, contractor or subcontractor will furnish all information and reports required by the Department of Finance of said City for the purpose of investigation to ascertain compliance with Non-Discrimination -- Equal Employment Opportunity Requirements. If the vendor, supplier, contractor, or subcontractor fails to comply with the manner in which he/she or it reports to the City in accordance with the provisions hereof, the vendor, supplier, contractor or subcontractor shall be deemed to have breached the present contract, purchase order or agreement and it may be

- canceled, terminated or suspended in whole or in part by the City or its agency; and further Civil Rights complaints, or investigations may be referred to the State;
4. The vendor, supplier, contractor or subcontractor shall include the provisions of Subsections 1 through 3 inclusive, of this present section in every subcontract, subpurchase order or subagreement so that such provisions will be binding upon each subcontractor, subvendor or subsupplier.
 5. If the contractor fails to comply with the manner in which the contractor reports to the Department of Finance as stated above, the contractor shall be deemed to have breached this contract and it may be canceled, terminated or suspended in whole or in part by the contracting agency;
- D. Exempted from these requirements are:
1. Those contractors, subcontractors, vendors or suppliers who have less than four (4) employees, whose contracts, purchase orders or agreements cumulatively total less than five thousand dollars (\$5,000) during the fiscal year of said City are exempt from any further Equal Employment Opportunity or Affirmative Action Program submittal.
 2. Those vendors, suppliers, contractors or subcontractors who have already complied with the provisions set forth in this section by reason of holding a contract with the Federal government or contract involving Federal funds; provided that such contractor, subcontractor, vendor or supplier provides written notification of a compliance review and determination of an acceptable compliance posture within a preceding forty-five (45) day period from the Federal agency involved.
